

The MACC Numbers for the 2015 Season

Mike Sayers

This is the annual report on our attendance. All previous reports are available (along with this one) on the web site in the MACC section, at: <http://www.maccracing.org/macc/minutes/>

Summary

Our numbers this year were the same as last year with respect to registration and attendance at Boyne; our average attendance increased because there was no low-attendance weekend north of the bridge.

Team votes next year (2016) will be the same. The MACC Board will again have 12 votes, with 7 voting members needed for a quorum.

MACC Team Attendance and Votes

Table 1 shows the team turnout for 2015 and the resulting team votes for 2016. The table also includes a column **Reg.** that indicates the number of racers who registered with each team. The total registration is 158; last year it was 159, and the year before it was 172.

Toledo	2	23	203	18.5	20	21	18	19	16	15	17	18	19	20	20

With 11 races (the Cantor Cup is not counted), it takes 55 racer starts for a team to get a vote, 132 to get two votes, and 330 to get three votes. Next year the MACC teams will have 12 votes, the same as this year. All teams have the same number of votes as last year.

For comparison over past years, Table 2 shows the attendance histories of the recent teams going back to 1992.

*Average of first 6 Boyne 2000 / 2002 races (normal weather).

Searchmont and Marquette numbers are shown in italics for the years 1996 to 2014. The averages in the column “**Boyne**” do not include Searchmont, Marquette, or the Cantor Cup. The averages in the column “**Ave**” do not include the Cantor Cup for years after 1998.

All races in 2015 were at Boyne, which is why the turnout summaries **Ave** and **Boyne** are identical. Our Boyne turnout was identical between 2014 and 2015; overall attendance was up because there was not a lightly-attended weekend north of the bridge.

Courses and Classes

Table 4 shows the attendance for the courses, including guests. Races 5 and 12 are not shown because they were Super G races run on just two courses. Compared with the seven Boyne races from last year that used all four courses, course 2 shrunk a little while courses 1 and 3 grew a little.

Age Distribution

Table 7 shows information about the distribution of our registered racers by age over the past few years. Ages were based on Dec 31 before the first race of the season. It gives the number of registered racers in each age group. The last three columns give ages at 25-percentile intervals: this season, 25% of our racers were 46 or younger, 50% were 55 or younger, and 75% were 61 or younger. That means about a quarter of our racers are between 55 and 61, and half are between 46 and 61.

Table 7. Distribution of racers by age.

Season	Number of racers in different age groups									Percentile ages		
	15-17	18-23	24-39	40-49	50-59	60-69	70-79	80+	?	25%	50%	75%
2009	7	16	20	55	69	27	8	4	0	42	49	56
2010	7	8	21	41	59	29	7	3	0	42	50	58
2011	10	7	20	32	70	29	10	3	8	44	52	59
2012	6	11	22	30	69	28	9	1	5	43	52	58
2013	3	7	27	26	68	31	9	1	0	43	52	59
2014	5	9	15	22	63	33	11	1	0	45	54	60
2015	8	4	21	16	58	38	12	1	0	46	55	61

Our numbers have been stable over the past few years for the older racers; the table shows small drops for racers between 40 and 59, and small increases for racers between 60 and 79. We're recovering a little in the 24-39 and 15-17 groups.
