

Some last minute news for all you fun seekers:

Update on 2017 registration. We have 140 registered racers, including 9 new racers. Welcome the new racers... show them some warm MACC hospitality!

Silver Pass Holders: Saturday, January 21 is a blackout date. Ginnie is in process of contacting Ed Grice, Boyne Mountain General Manager to see if we could be exempt if we stay on Superbowl. The Warren Miller coupons that Dave Corcoron passed out are NOT valid for Saturday.

Decision from Ed Grice: Saturday remains a black out date for Silver Pass holders

Ed will give us first choice again to set our dates for next year's races and we will need to make sure that we don't select a blackout date. When Scott initially sent him the final dates for our races that this blackout date was overlooked and then it was too late to fix. 2017 calendar was challenging to set because of how Martin Luther King and Presidents Day Weekends fell.

Conditions update from Boyne:

We will again be using F.I.S. for both GS and Slalom this weekend. The Superbowl run is just not ready due to weather conditions.

Course setting and inspection: We will be using urea to keep the course firm, which requires approx. 30 minutes to set up before course can be inspected.

Also, in and out inspection ONLY, no snowplowing or slide slipping in the course during inspection.

See you on the hill... and bring a friend!
